Travel on a McLouis

to conquer the world!

**McLouis is ready!
Have you packed
your bags?**

Let the vacation begin!

Climb aboard a McLouis and be carried back to your first vacation in the company of your closest friends.

Remember the fun you had during those group suppers? McLouis is a nest made especially for you, a custom-made companion for worry-free travel. There's a McLouis that's right for every crew.

You can select among motorhome, low-profile, coachbuilt and motorhomes, each one is perfectly furnished and designed to be there when you feel the need for a getaway.

*McLouis,
your emotional
companion*

**Simply
protagonist**

McLouis is the uncompromising choice:

style and concreteness are the distinctive features of every McLouis motorhome.

The entire McLouis range offers cutting-edge technical solutions.

2 DIFFERENT STYLE PROPOSALS
Series 300 and Series 800

4 TYPES OF PRODUCT
*Van, coachbuilt,
low-profile and
motorhome*

5 YEARS OF WARRANTY ON THE BODY
*trendy layout and
solutions with best in class
equipment.*

+ than 30 MODELS PROPOSED
IN THE RANGE
*We have the right solution
for every one of you!
From the couple to the
large family.*

*Stop to infiltrations
Lighter
More resistant
More stable*

- 1** Total absence of wood.
- 2** Total waterproofing and higher heat insulation.
- 3** Highest torsion resistance and more stability.
- 4** Higher wear resistance and easy maintenance.
- 5** Lighter and more resistant structure thanks to the use of bi-composite thermosetting resins.

**McLouis,
made
to last.**

The construction system is characterized by the absence of wood in the construction of roofs, walls and floors.

This allows to have a total waterproofing and insulation thanks to the absence of thermal bridges generated by wood. In addition, the continuous search for cutting-edge materials, such as the plastic resins used in the production process, allows at the same time to reduce the weight of the body, but making it more resistant.

The promises from McLouis: *Construction system*

- A** Fibreglass
- B** Extruded polystyrene
- C** Bi-composite thermosetting resins
- D** Nonslip and abrasion resistant PVC

*Space at will for your
desire for adventure*

The promises from McLouis *Stowage*

Gather all your emotions and take them with you.

With McLouis, you'll never be far from home. Garages and outside storage will allow you to find a place for everything you need. The space is used rationally with easily accessible storage compartments.

The garage doors are large, with garage interior height up to 1470 mm. Access to the garage is from both sides of the motorhome.

ILLUMINATED AND HEATED GARAGE

The door is completely covered with fibreglass.

VARIABLE VOLUME GARAGE

thanks to the mechanism for moving the transversal, central and twin beds up and down.

REINFORCED GARAGE FLOOR

for a maximum capacity of up to 300 kg. Low garage doors for easy loading and unloading.

WITH ONE SIMPLE MOVEMENT

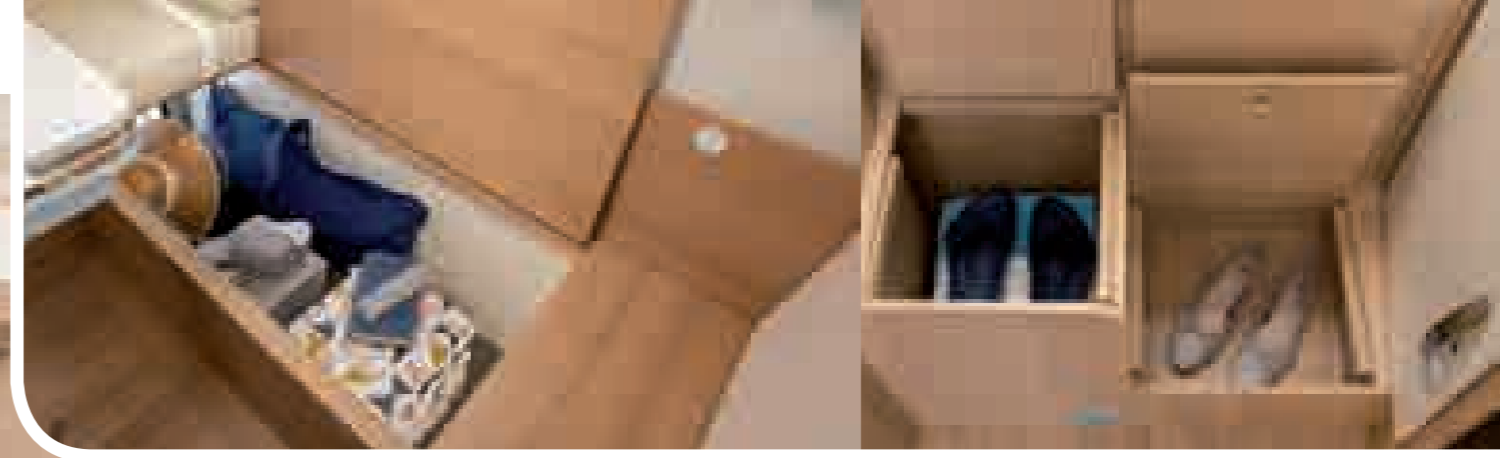

the lower bunk bed folds to make room for a large loading area.

EXTERNAL STRIPS

openable with stowage maxi-garage (for 800 Series).

*Large space
to serve
your comfort*

In the steps to facilitate getting on the bed or in the chest compartments you can find useful and comfortable spaces for accommodating your objects without any problems.

Freedom also means being able to move easily without unnecessary clutter.

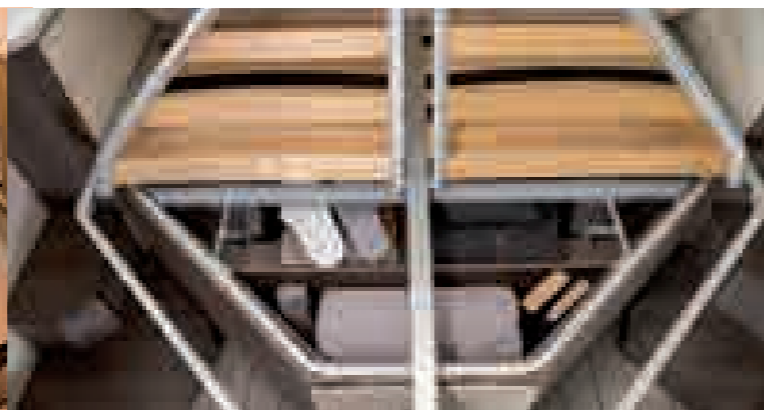

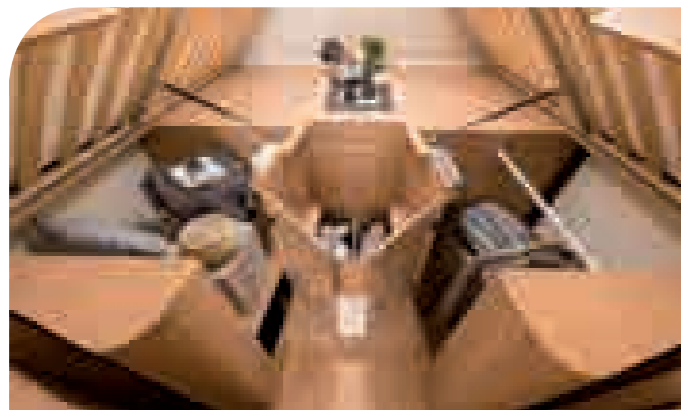

The promises from McLouis *Internal Stowage*

**Space
liveable.**

Various storage spaces to hold even the most bulky elements.

A simple mechanism makes the bed nets liftable.

+ Convenient floor-standing storage hatches (included in the 800 Series)

The interiors of McLouis are designed to create the freedom of movement typical of a luxury suite.

Comfort also means having the opportunity to bring with you all that you need for your holiday. This is why McLouis motorhomes are made in accordance with a rational and functional use of the space for stowage and optionalimal weight distribution.

+ UNDERFLOOR HEATING SYSTEM
 In combination with the heating, it offers greater interior comfort thanks to the use of heating films (Optional where available)

Don't let the cold stop you.

McLouis, made to reach every goal

True lovers of mountains and adventure do not let themselves be stopped by the snow and the temperatures below zero. In addition to the state-of-the-art construction system of the body, which allows a perfect insulation and reduces heat loss to a minimum, McLouis offers you a range of best in class winter features.

- Perfect insulation.
- Minimum heat loss.
- Heated, lit garage.

The promises from McLouis *Winter Solutions*

Truma Combi is the smallest heating system in Europe, and it works with both gas and electricity (Optional). It is fitted as standard equipment with FrostControl, the current-free drainage/safetyvalve for freeze control. The water heats up quickly for long and pleasant showers. Available as an option with a new control unit called CP PLUS. Collision sensor that cuts off the gas supply in case of accident. Boiler/heater system Combi 4 (Optional Combi 6, Combi 6H, and Combi 6 Diesel) Heating with channelled air.

The Alde central heating system works on the same principle as a modern home. Quality heating. Convectors and radiators along the outer walls, and pipes in floor, heat up the air, which in turn heats up the furniture and surfaces. The rising, warm air forms a barrier in front of the windows, keeping the cold out. Boiler Alde 3020 HE Alde Compact 3020 HE is the heart of the heating system. Frost control is a drain/safety valve that automatically opens and drains the water heater when there is a risk of frost. Control panel Touch screen the entire advanced system is controlled simply and intuitively by the control panels touch screen. Hot Water The Alde Compact 3020 HE boiler has a built-in heater that ensures that you always have hot water in the shower and kitchen.

There is a wide choice of options:

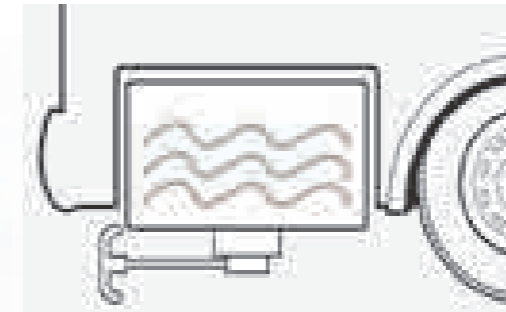

DASHBOARD PROTECTION
 Greater protection against cold draughts inside the passenger compartment. (Optional-Nevis)

WINDSHIELD EXTERNAL BLIND
 Greater windshield protection against cold/heat. (Optional-Nevis)

INSULATED STEP
 Greater floor insulation, more efficient protection against the cold. (Optional)

ISOLATED WASTE WATER
 tank and exhaust valve with anti-freezing resistor (Optional)

HEATED WINDSHILD
 Windshield with double function: defroster in winter season and solar heat protection during the summer. (Optional-Nevis)

Style and elegance on board.

Trendy solutions without losing sight of functionality

- Ergonomic and comfortable seats with soft and rounded shapes.
- Style and exclusivity to your environment thanks to the LED lighting.
- Modern design wall units with chrome-plated handle for opening.
- Always bright environment thanks to the large Skyroof in the low-profiles.

McLouis environments *Dinette*

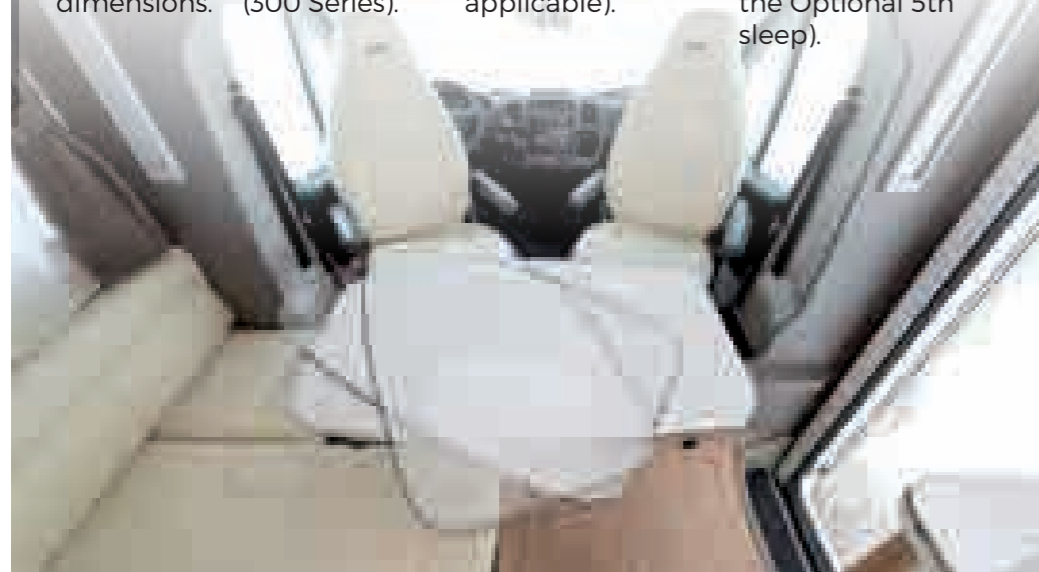

DINETTE TABLE
with large dimensions.

TRANSFER MECHANISM
and 360° table rotation (300 Series).

FOLDING TABLE
for space optionalimization (where applicable).

TELESCOPIC LEG
for table height adjustment (in combination with the Optional 5th sleep).

McLouis environments *Dinette*

Maxi dinette,
conviviality for you
and your guests

FOLDING DOWN BEDS equipped with electric up and down mechanism.

MOTORHOME FOLDING DOWN BED with space-saving opening: the dinette remains usable even when the bed is lowered.

+ Space even for the youngest! Rear dinette foreseen in the model Glamys 323.

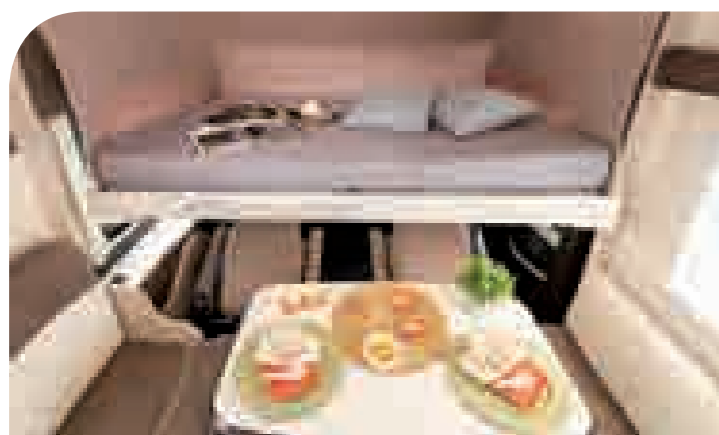

*The right space
for your every need.*

ENTRANCE PANEL with padding and mirror.

HANDLE FOR GETTING ON EASIER, with LED lighting.

+ Stainless steel sink

+ Cooker hob with 3 burners (2 for model MC4 330 and MC4 830)

McLouis environments *Kitchen*

Different solutions for your kitchen.

- Kitchens equipped with extractor hood.
- 142 or 150 litres refrigerator depending on the model.
- Kitchen window protection panel with LED backlighting.

KITCHEN WALL UNITS with large spaces and chrome-plated handle for opening.

DOUBLE RACK IN THE SHELVING UNIT for a more functional stowage.

A single point in common: space and rationality for a fully equipped kitchen.

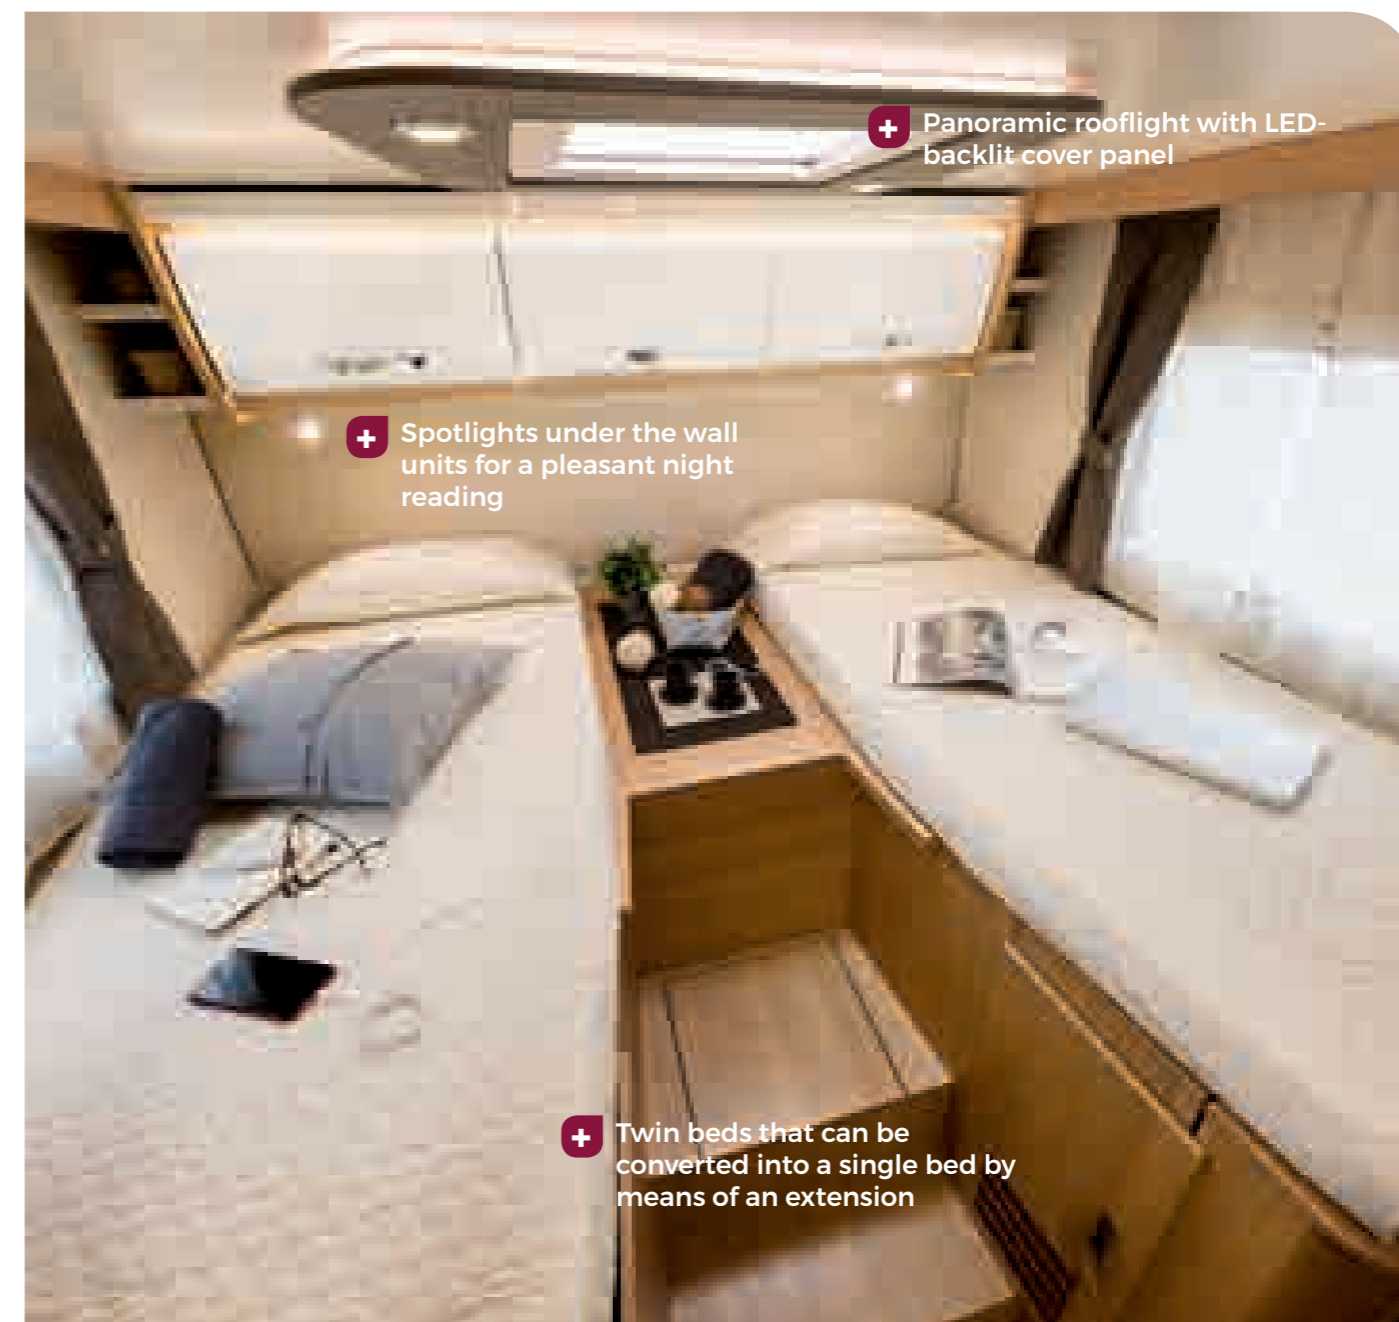

+ Bed headboards with padding

+ XXL central beds: 1600 mm width

McLouis environments *Sleeping area*

+ Panoramic rooflight with LED-backlit cover panel

+ Spotlights under the wall units for a pleasant night reading

+ Twin beds that can be converted into a single bed by means of an extension

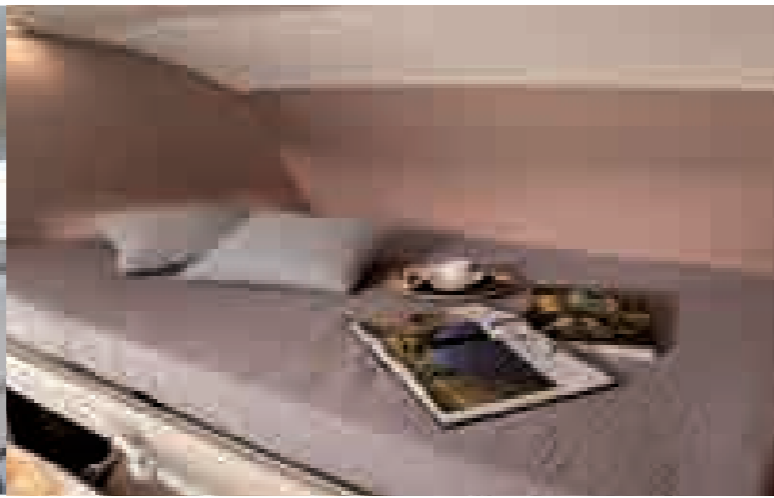

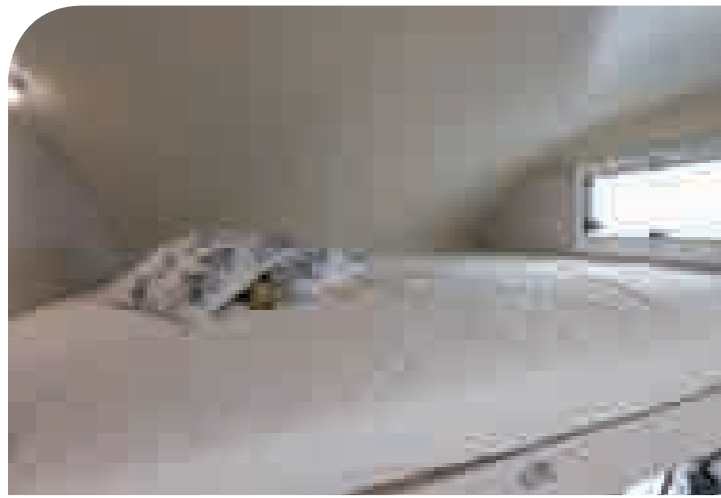

+ Manual mechanism for height adjustment of the bed

5-star suite? I prefer McLouis

We have the right solution for every one of you! From the couple to the large family.

- Transverse bed with manual up and down mechanism.
- Beds with wooden slats.
- Large storage wardrobes..

A new dimension for your relaxation

All folding down beds are equipped with electric folding up and down mechanism

- Motorhome folding bed with large dimensions, 1400x1900 mm.
- Spotlight for night reading.
- Roof fastening system for safe travel.

Comfort is the watchword!

XXL OVERCAB
1500 mm deep, with window and anti-condensation panels.

MAXI REAR FOLDING DOWN BED (MC4 330 AND MC4 830) with electric handling mechanism.

McLouis environments *Sleeping area*

Reclining backrests for a pleasant reading (MC4 375, MC4 875, NEVIS 375, NEVIS 875)

McLouis environments *Toilette*

+ Shower with rigid doors and wooden platform

Modern design of the chrome fittings

Luxury and privacy for your well-being

Let yourself be seduced by the luxury of a bathroom made to measure for you.

- Spacious bathrooms with separate or integrated shower depending on the model.
- More brightness thanks to the opening window.
- Door separating the living area from the bathroom area.
- Sliding door or shutter to insulate the bathroom from the bedroom..
- Wall mirrors and spotlights to create a warm and intimate atmosphere.

MC4

Low Profile

All-inclusive

- + Manual cab climate control
- + Cruise Control
- + Double airbag
- + Seat covers
- + TV holder
- + Extractor hood
- + Sky dome on roof
- + 5th type-approved seat (where applicable)
- + 2-point type door, with window and flyscreen
- + Central locking for living unit/cab door
- + Manual sliding rails for central beds and garage
- + Transformation of twin beds into a double bed
- + Rigid door separating the sleeping area from the living area.
- + Curved table leg
- + Storage compartment inside the floor
- + Openable external bands with maxi-garage
- + Audio diffusion in the room
- + Radio 2 DIN Car Play

Born to be a Motorhome

Created from the collaboration for many years with the manufactures, Fiat Ducato is the perfect combination of chassis and living unit.

+ Standard

- **Cab manual climate control:** enhanced and diffused ventilation to the entire cab.
- **Cruise Control:** for complete relaxation when driving, the speed is constant and the foot is free to move.
Included Speed limiter, which prevents the set maximum speed from being exceeded.
- **ESC (Electronic Stability Control):** monitors acceleration, speed and grip. Includes:
- **ROLL-OVER** mitigation, which improves stability by reducing roll;
- **LAC (Load Adaptive Control)** which monitors the load distribution;
- **ARS** which prevents the driving wheels from slipping in acceleration phase;
- **MSR (Motor Schlepptomoment Regelung)** which avoids loss of grip during sudden movements;
- **HBA (Hydraulic Brake Assistance)** which helps the emergency braking;
- **HILL HOLDER** which keeps the vehicle at a standstill in uphill departures.

There are many presettings to facilitate the transformation, a specific electrical system and a cab designed with reinforced uprights and pre-cut roof.

Extended rear track: 1980 mm.
A width compared to the standard commercial vehicle track larger by 19 cm.

More width means more space for internal living and greater stability.

There is a wide choice of options:

TRACTION + is the device for controlling the stability of the vehicle under conditions of poor grip of only one driving wheel.

It includes Hill Descent Control for controlled speed on steep descents while saving on brakes.

9-speed **AUTOMATIC TRANSMISSION** for a relaxed and enjoyable driving experience.

The style of the Citroën Jumper models is modern and takes up the latest codes of the brand: the signature of the chevrons combined with daytime headlights, fluid and non-aggressive lines, yet transmitting security and robustness.

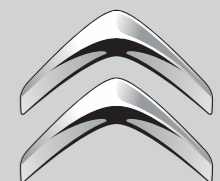

Inside Citroën vehicles, the interiors are welcoming and can be configured with swivel seats in order to facilitate circulation on board.

There are numerous practical and easily accessible compartments and the structure of the controls allows the driver to have everything at hand and look (gear lever in high position, central touch pad, ...).

The engine of the Citroen Jumper is equipped with the latest SCR-Adblue technology and meets the antipollution emission standards Euro 6.2, thus reducing consumption and CO² emissions.

+ Standard

- Manual cab climate control;
- ESC;
- Cruise Control;
- Double airbag;
- Leather covered steering wheel and gear lever knob;
- TPMS: Tyre Pressure Monitoring System;
- **Eco Pack** consisting of **Start and Stop System:** for a reduced fuel consumption. It restarts automatically when the driver touches the accelerator pedal;
- **Smart alternator:** intelligent alternator that supplies only the energy needed;
- **Electronic fuel pump:** for energy saving and high efficiency in the use of fuel;
- **Automatic Lights;**
- **Rain sensors.**

CITROËN

Travel on a Menfys

to conquer the world!

**McLouis is ready!
Have you packed
your bags?**

Let the vacation begin!

Climb aboard a McLouis and be carried back to your first vacation in the company of your closest friends. Remember the fun you had during those group suppers? McLouis is a nest made especially for you, a custom-made companion for worry-free travel. There's a McLouis that's right for every crew.

Van Menfys is perfectly furnished and designed to be there when you feel the need for a getaway.

*McLouis,
your emotional
companion*

Simply protagonist

McLouis is the uncompromising choice:

style and concreteness are the distinctive features of every McLouis.

Productive Excellence

McLouis vans are built in the Paglieta plant (Abruzzo), an industrial district of over 28,000 m² that produces vans for the Trigano group for the whole of Europe.

Construction technology

McLouis vans are tested in a climate chamber. Perfect internal insulation from outside temperatures and noise.

Functionality

Optimized interior space and load compartments designed to be functional and modular according to your needs.

Insulation

Every season a drive away.

+ Materials with excellent performance

and appropriate construction solutions ensure that the Menfys campervan has excellent insulation that makes it appropriate for summer and winter use.

High performance is guaranteed by the use of material with high insulation performance, polyester fibre covered with a film of aluminium, covering the internal walls, ceiling, crossmembers, pillars and rear doors:

+ Total coverage

The flexibility of the material allows it to be inserted in cavities as well.

+ Absence of thermal bridges

Uniform coverage to promote constant internal temperatures.

Tests

TESTS IN CLIMATE CHAMBER

in accordance with the EN 1646-1 standard, according to which a vehicle brought to -15° must reach +20° in 4 hours, have demonstrated that WPS insulation:

• REDUCES THE TIME

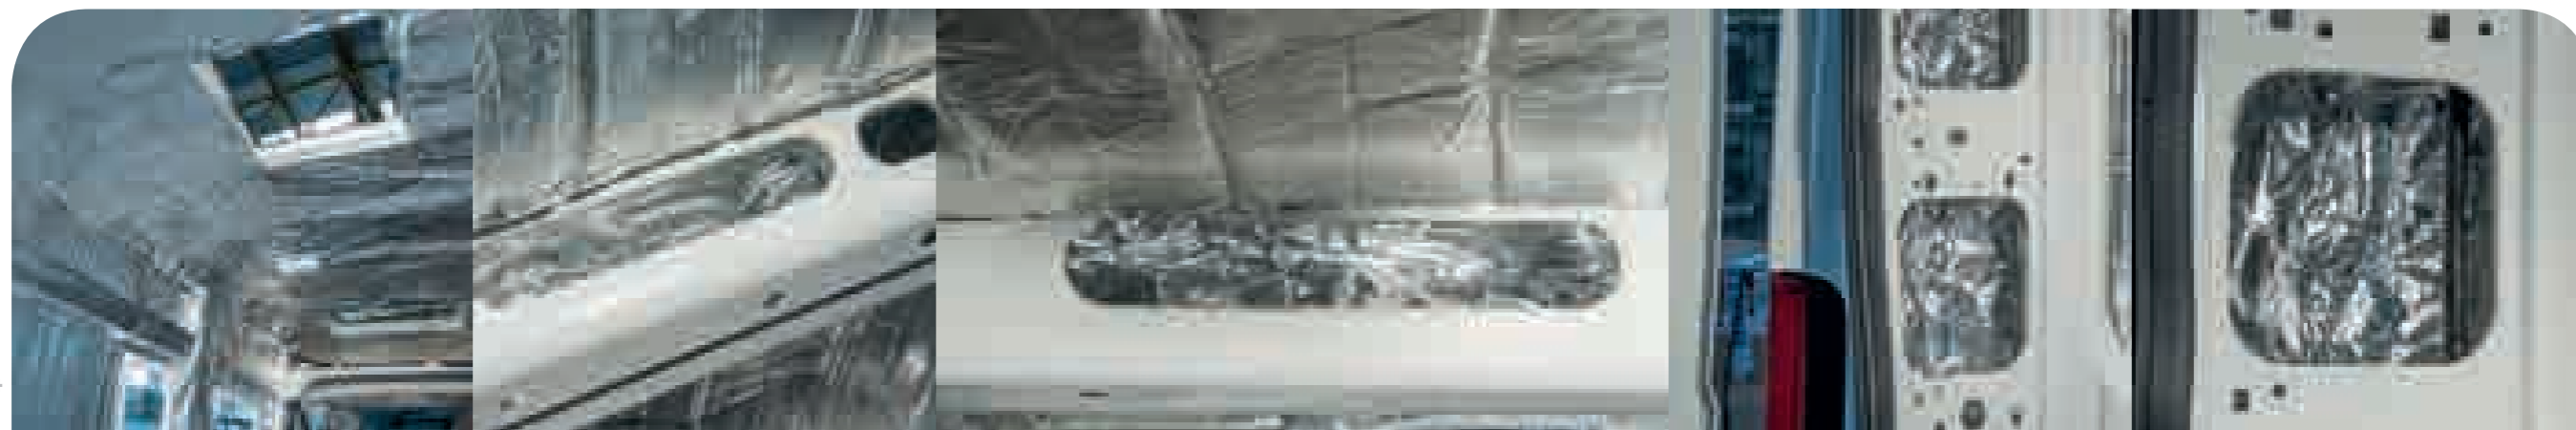

to reach pleasant temperatures inside the vehicle by 50%, even when starting from extremely cold conditions.

• INCREASES THE UNIFORMITY

of temperature inside the various areas of the campervan by more than 65%.

• MAINTAINS TEMPERATURES

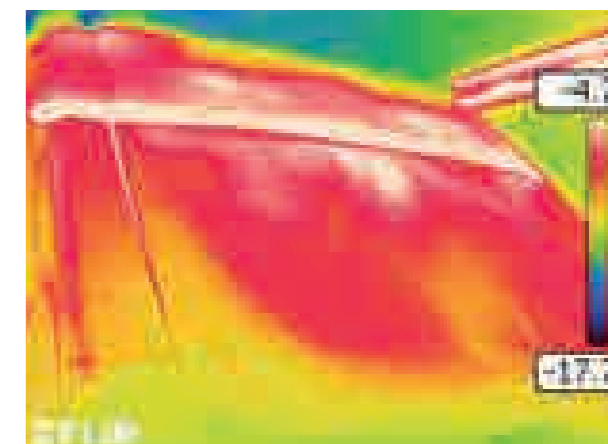

with greater consistency and longer for more comfortable environments.

Don't let the cold stop you

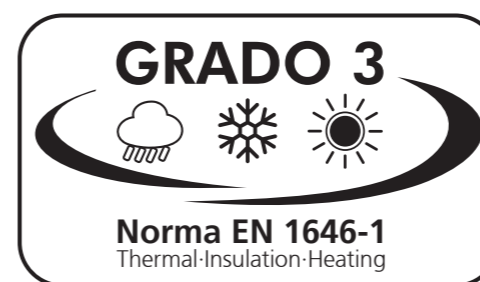

Same performance as a motorcaravan!

Winter

McLouis has tested its campervans in the climate chamber, basing itself on the EN 1646-1 standard, according to which a vehicle brought to -15° must, once the heating systems have been activated, reach an internal temperature of 20° in 4 hours.

Menfys, in its basic configuration, fully satisfied the target at a little over 3 and a half hours, thus earning "grade 3" performance. The result is comparable to the performance of a medium motorhome (with length of 7.4 metres and rear central bed) which, with an internal volume double the campervan but very different build, bodywork and materials, reaches the target in the same time.

There is a wide choice of options:

ARCTIC PACK:
C6 combigas boosted heater
Thermal blind to protect side windows.
Thermal blind to protect dashboard.
Insulated rear curtain

WINTER PACK:
Grey water tank insulated with a 15 mm layer of polyurethane.
Electrical probe with thermostat positioned close to drain valve.
Insulation of external water pipes. Insulation of external heating pipes.

+ Home-inspired kitchen where everything is within arm's reach.

Plenty of room for storage with three deep and stable bins, of which two can be completely extracted with soft-close function.

The work top can be extracted easily and forms a level surface without steps.

The refrigerators ensure autonomous operation by running on gas, 12 V or 230 W.

+ Greater living comfort in the cab

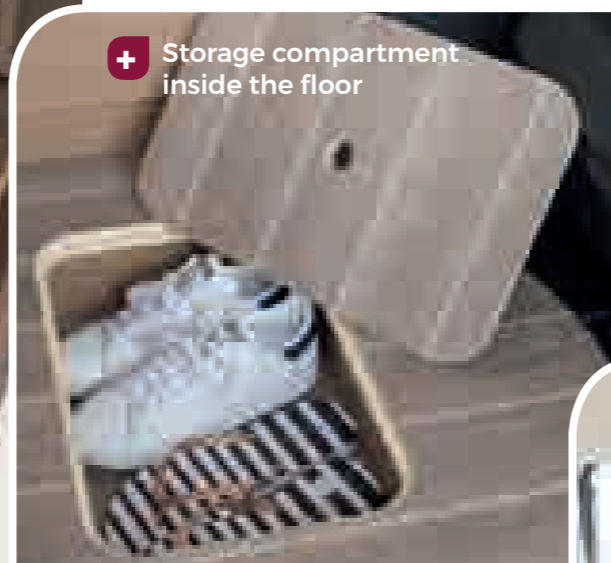

The outline of the cab allows to have a better living comfort inside and to obtain comfortable storage compartments.

+ Toilette Sliding or tipping wash

basin which retracts into the wall. Handy for use only when it is needed.

Extractable tap to be used also for the shower.

Double drain in the floor: water flows out more easily.

+ Storage compartment inside the floor

Functionality

GARAGES EQUIPPED

for transporting larger items thanks to removable or lift-up beds. Under-bed storage.

EXTRA SIDE BED

where possible, like on Model Van 3 Maxi (1860x1440mm), even the largest in its category.

Optimized interior space

FOLDING TABLE WITH EXTENSION (PRESTIGE PACK), which can be dismantled and used outside: comfort and legroom when seated, large surface during use.

1

2

3

4

VAN 4

Modularity

- 1 Lift-up bed bases.
- 2 Three cupboards that can be removed separately.
- 3 Removable, adjustable-volume double floor.
- 4 Extra load, without taking up space.

VAN 4

*Single environment,
multiple space.*

All the space is designed with a view to maximum functionality, modularity and ease of use.

VAN 4

VAN 4

A window on the world

SKY ROOF PANORAMIC ROOF (OPTIONAL)

More space in the cab and more light for a comfortable and bright environment. Tested in climate chamber.

CAB OUTLINE

In the basic version, the cab outline allows for greater living comfort inside and to obtain comfortable storage compartments

We tested it!

TEST IN CLIMATIC CHAMBER
from -15°C to 40° C.

THERMAL IRRADIATION TEST
on the surface of the Sky Roof at 65° C; 75° C; 80° C; 85° C.

LOW TEMPERATURE TEST
(Freezing test -15°C) for control of possible formation of ice in the perimeter of the glass and any damage or malfunction.

VIBRATION TEST
with simulation of 820 km on a special route (cobblestones).

INFILTRATION TEST
carried out during the tests at low temperatures and vibration.

VAN IN CLIMATIC CHAMBER

VISUAL CHECK
to identify any damage or deformations in the surfaces of the Sky roof.

Performance and safety start here

Ducato Euro 6D

+ Standard

- **Cruise Control:** for complete relaxation when driving, the speed is constant and the foot is free to move. Included Speed limiter, which prevents the set maximum speed from being exceeded.
- **ESC (electronic stability control):** monitors acceleration, speed and grip. Includes:
- **ROLL-OVER** mitigation, which improves stability by reducing roll;
- **LAC** (Load Adaptive Control) which monitors the load distribution;
- **ARS** which prevents the driving wheels from slipping in acceleration phase;
- **MSR** (motor Schlepptomoment Regelung) which avoids loss of grip during sudden movements;
- **HBA** (Hydraulic Brake Assistance) which helps the emergency braking;
- **HILL HOLDER** which keeps the vehicle at a standstill in uphill departures.

There is a wide choice of options:

IL TRACTION +

is the device for controlling the stability of the vehicle under conditions of poor grip of only one driving wheel. It includes Hill Descent Control for controlled speed on steep descents while saving on brakes.

TPMS

tyre pressure control system for more safety, better fuel efficiency and lower emissions.

9-SPEED AUTOMATIC TRANSMISSION

for a relaxed and enjoyable driving experience.

The steering wheel is easy to grasp and a typical automotive slant. It can be adjusted axially with a stroke of 50 mm.

The dashboard features bottle holders and storage compartments both open and closed, integrated cup holder and container for smartphones or mp3 players.

- + **Captain chairs** with integrated head restraint, wide backrest, improved side containment, double armrest.

On pivoting plate, in addition to being adjustable in height and inclination, they can turn by 180° and once turned they can slide forwards to move closer to the dinette.

Available engines

140 CV 2.3 MJ

140 CV 2.3 MJ

160 CV 2.3 MJ

180 CV 2.3 MJ

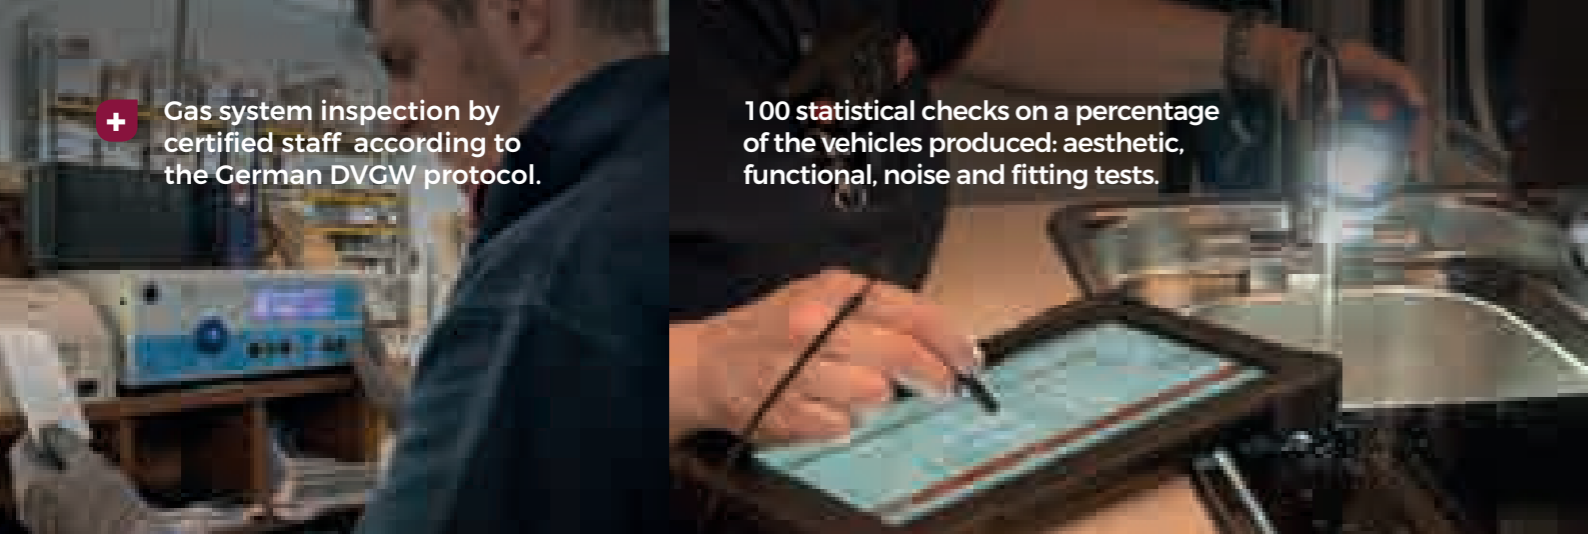

- + **Tyres** suitable for long stops and with low rolling resistance to reduce consumption.

- + **Central cab door locking**

- + **Radio aerial integrated** in the rear mirrors

- + **Headlights are positioned higher up:** with two notable advantages: better light beam width on the road and reduced possibility.

+ Gas system inspection by certified staff according to the German DVGW protocol.

100 statistical checks on a percentage of the vehicles produced: aesthetic, functional, noise and fitting tests.

Tests and checks

Waterproofing tests on 100% of the vehicles produced, before delivery.

+ Electronic weighing of 100% of vehicles before delivery

Under Control

SPECIFIC TESTING
in climate chamber to check the resistance, duration and performance of the materials selected at extremely high/low temperatures.

PERFORMANCE TESTS
on the components used: durability of mattresses, resistance to stress, reliability and compliance with European regulations in the design of the seatbelt unit.

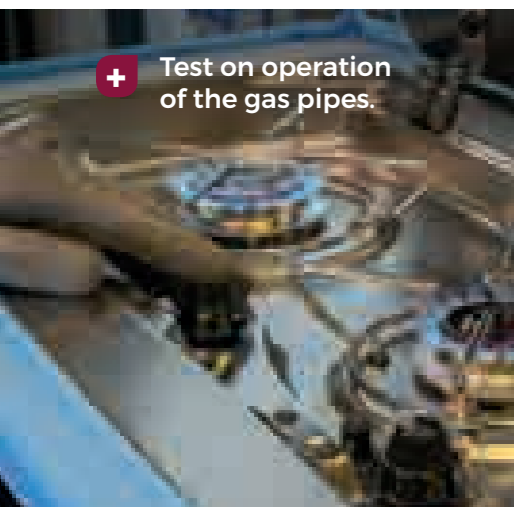

VAN Series upholstery

CLASSIC (Standard)
Quilted microfibre and faux leather

TREND (Optional)
Faux leather

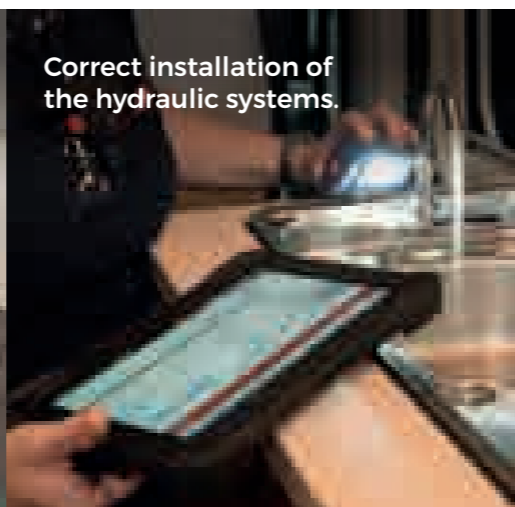

SPORT (Optional)
Faux leather and fabric

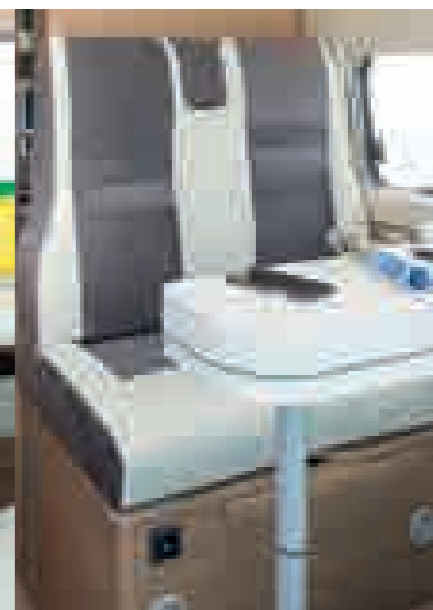

+ Test on operation of the gas pipes.

Check on operation and correct installation of the electrical systems.

Correct installation of the hydraulic systems.

SILVER (Optional)

BLACK (Optional)

RED (Optional)

The masses indicated in this catalogue refer to the provisions of European Directive 2007/46/EC.

MASS IN RUNNING ORDER

It includes the weight of the empty BASE vehicle, of the driver (75 kg), 100% of the fuel (60-l tank), fresh water (tank filled with 20 l while travelling), and a gas tank for living purposes (20 kg). The mass in running order, and consequently the payload and/or certified seats may vary depending on the accessories installed.

PAYLOAD

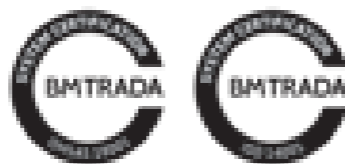

This consists of the difference between the maximum technically permissible laden mass and the mass in running order. It includes elements for living purposes, the transported passengers defined by the manufacturer (driver excluded), and the personal effects. The payload calculation is based on the following parameters: 75 kg for each passenger (driver excluded), 10 kg of baggage for each passenger and for the driver, 10 kg for each metre of length of the vehicle, plus the remaining payload, which can be used for the installation of accessories or for additional baggage. All masses and loads of the empty vehicle have a tolerance of +/- 5%, in compliance with Directive 2007/46/EC. Any optional equipment increases the mass in running order and decreases the payload. The weight of non-standard accessories is not included in the mass in running order indicated in this catalogue. Additional accessories and devices reduce the payload by a quantity equal to their weight; the incidence of the weight of the individual accessories is shown in the special column in the technical data sheets or can be requested at our dealers. In case certain accessories are installed (for example, additional elements such as coupling device or motorbike rack), the mass of these accessories will affect the payload, possibly reducing it along with the number of certified seats. Please make sure that the maximum loads on the axles and the maximum technically permissible load mass are not exceeded during the complete loading phase of the vehicle. The regulations and requirements of each country may entail changes in the characteristics of this table. The number of certified seats may vary depending on the traffic regulations in force in each country.

NOTES

SEA S.p.A. - McLouis reserves itself the right to change the characteristics and the furnishings of all its models with no advance notice required; all data contained in this leaflet must therefore be considered approximate and non-binding. Despite thorough checks of the contents, we cannot exclude possible printing and/or translating errors. This catalogue does not constitute contractual documentation. Any reproduction, including in part, of the text or of the content of this document is prohibited. The indicated weights are exclusively approximated. Tolerances of +/-5 % are allowed. Generally speaking, special equipment and options increase the no-load weight and entail a reduction in the payload. We hereby decline any and all responsibility in case structural changes are made to the vehicle; any assembly, disassembly or changes carried out by unauthorised workshops may jeopardise your safety and cause the warranty clauses to be forfeited. For additional information on installation and technical details, please contact one of our dealers.

GARAGE WEIGHT CAPACITY UP TO 300 KG

The load for the rear stowage has a maximum limit of 300 kg, uniformly distributed, in respect of the distribution of the maximum permissible loads on the front / rear axles.

SEA S.p.A. operates with an Integrated Environment and Safety Management System.

Certificate number:
ISO14001: 2939;
OHSAS18001: 1258.
