

McLouis, just **starring.**

McLouis is the brand for those who are looking for a pleasant, modern and attractive design motorhome that makes them feel special.

Anticipating trends, dictating fashion: this is one of the goals of McLouis, which offers technical and trendy high-end solutions at a competitive price.

The history.

McLouis was born in 1999 when the number of people approaching the world of plein air was on the rise. Specialized in the production of motorhomes, semi-motorhomes and overcabs, McLouis is a spokesman of international taste, attentive to the dictates of fashion in terms of colours, materials, solutions. It offers a wide range of products with an attractive design, many different layouts to respond precisely to current trends.

McLouis has been able to accompany thousands of motorhome owners on their way to maturity, proving to be an excellent travel ally, whatever the destination.

Close to you, everywhere.

The McLouis sales network today consists of over 200 qualified distribution partners, spread throughout Europe. Through pre- and after-sales services, local staff and on-site distribution agencies, McLouis is able to satisfy even the most demanding customers.

The promises from McLouis

- ★ **Wide choice:** lots of layouts and many living solutions, for large families and for couples
- ★ **Always fashionable,** McLouis environments - modern and elegant - keep up with the new furnishing trends
- ★ **Details that stand out,** for those who don't want to go unnoticed. The McLouis style is unmistakable
- ★ **Functional spaces,** rationally designed to travel and live aboard your McLouis with maximum comfort
- ★ The reliability of a **well built** vehicle with a 5-year warranty on the body, high-performance materials and state-of-the-art manufacturing processes

Series **200** comes in

The 200 series, designed for those taking their first steps in the world of itinerant tourism, offers 10 new layouts, 5 Glamys overcabs and 5 Mc4 low-profiles, also available with the option of electrically-operated elevating bed.

Practical, manoeuvrable and functional, the 200 series vehicles reflect the unmistakable McLouis style and are characterized by superior construction technology, a guarantee of safety and durability.

Welcome on board!

The 200 series vehicles welcome you on board with the XL living unit door, with mosquito net, and the large integrated step for a comfortable and easy getting on. At the entrance, the handle for an easier getting on is equipped with an LED point.

Take everything you need, and more!

The **large garage with a load capacity of up to 300 kg** comfortably transports bicycles, luggage and bulky objects. Practical to use thanks to the two symmetrical doors, both as standard, with 180 degree opening, equipped with splash-proof and frost-proof rubber seals, to resist humidity and colder temperatures. The maxi-garage, illuminated and heated, can be used in any condition.

The vehicles in photo may be equipped with optional specifications.

LED external light

to illuminate the pleasant summer evenings spent outdoors or simply to make it safer when it's dark outside.

Construction technology designed by McLouis with 5 years warranty

against infiltration, to always have comfort and safety. To learn more about construction techniques and materials, go to the dedicated paragraph on pages 52 and 53 of this Catalogue.

5

Light and air

for great living comfort. Thanks to the double-glazed windows, blind and mosquito net and the three skylights located above the dinette area and in the central and rear areas of the vehicle, the passenger compartment enjoys natural light and is always well ventilated. In the Mc4 low-profiles the standard dinette skylight measures 70x50 cm to ensure an even brighter living area.

An XXL overcab.

The Glamys overcab has a depth of 1500 mm to offer space for sleeping and space to store bulky objects during the day. It guarantees comfort and safety thanks to its window and anti-condensation panels.

The interiors of the 200 series are characterized by **natural colours**, from brown to beige, chromatic contrasts for a modern and elegant design environment. The polished laminates of the doors give a touch of glamour to the environment.

The attention to detail is fundamental for a harmonious result: the fabrics and **quilted panels** in imitation leather are carefully chosen and matched with the furnishing elements.

The **LED profiles**, the **lighting underneath** the wall units, the **chrome edges** of the table and the tops create a pleasant play of light that enhances the interiors.

For the privacy of the passenger compartment, McLouis has chosen **Roman blinds**: functionality and comfort, without sacrificing style.

Mc4 237

Style and elegance on board.

The 200 series offers trendy solutions for the living area, without losing sight of comfort and functionality, both on the move and on arrival.

The dinette, spacious and inviting, is the ideal place to plan all the details of the next stage or to end the day pleasantly, enjoying your favourite dish. The ergonomic seats, with their soft and rounded shapes, are ideal for relaxing while the LED lighting allows you to always create the right atmosphere, according to your preferences.

Glamys 223

Mc4 231, Mc4 239

Relaxation space for children! McLouis also thinks of the little ones: the Glamys 223 model has a rear dinette with a folding top table - in addition to the front one - where children can draw, colour and play.

Glamys 265

The table, available in fixed, folding and sliding versions, adapts to your needs and can be used anywhere in the dinette.

With a practical pedal you can change the height very easily and prepare the dinette bed quickly and effortlessly (the button is available in Mc4 and Glamys models with L-shaped dinette).

The exclusive upholstery for the 200 series, in imitation leather with visible brown stitching, features the McLouis logo on the large, unique headrest.

For those who wish to have more space to sleep, the Mc4 models of the 200 series offer the electrically operated folding bed as an option to have one or two extra beds, depending on the model.

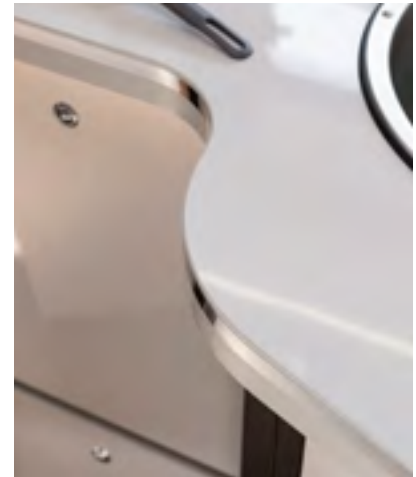

Enjoy your meal!

With the 200 series, cooking is a pleasure! The two-burner cooking hob* allows optimal use of space and free space on the kitchen top for the preparation of dishes or simply to place cutting boards, containers and other accessories.

The 142 litre refrigerator, with its slim design, is a little less than 42 cm wide and has the advantage of offering a large volume in small dimensions. It is equipped with a separate 15 litre freezer and a practical external bottle drawer.

*The Glamys 265, Mc4 231 and Mc4 239 models offer a single stainless steel hob with 3 burner cooking zone and integrated sink.

Space and rationality.

You can store all your dishes and crockery in generously sized wall units with chrome handle for opening. The shelving unit is equipped with a double shelf to organize the stowage in a practical and functional way.

At the bottom a large drawer with internal cutlery tray, a lower door and a large side door with two separate large compartments - all with push-lock opening system - make the 200 series kitchen perfectly equipped.

The drawer under the kitchen top closes softly and locks itself without your intervention. Completely removable, you can fill it and tidy it up easily. Thanks to the precise guides and cushioned closure, you can say goodbye to the annoying knocks and noises of the drawers slamming!

Mc4 281

Perfect balance between space and comfort.

In designing the sleeping area, McLouis designers have managed to match freedom of movement and space to sleep well: it's easy to move around the beds without encountering any obstacles.

The room is comfortable and bright thanks to the large windows and the rear skylight. The spotlights at the sides of the bed allow you to relax with a good book before sleeping.

A pleated curtain separates the sleeping area from the living area, for greater privacy, as standard on vehicles in the 200 range (the pleated curtain is available on the models: Glamys 223, Glamys 265, Mc4 273, Mc4 281).

Take with you everything you need for your holiday, without giving up anything, on McLouis: you can put clothes and accessories in the wardrobes and, for the most bulky objects, you can use the compartments placed under the bed bases, which can be lifted very easily.

To rest properly, a good mattress is not enough: it's the bed base that makes the difference. All McLouis motorhome beds offer comfortable wooden slats and generous dimensions to help you rest in comfort. Models with twin beds include as standard the conversion into a maxi double bed, ideal for families with a small child and for those who want more space to sleep better.

A wellness area to pamper yourself.

In the elegant wooden toilet you can take care of yourself, as if you were at home. You can prepare to go out in front of the large mirror, illuminated by spotlights, with a handy top with toothbrush holder and soap holder.

Special attention is paid to the stowage compartments, such as the wall unit and the door with push-lock opening, where you can store everything you need for your wellness.

Comfort is also guaranteed by the presence of the window for light and air exchange.

Showering on board a McLouis is a real pleasure: both in the models with separate shower enclosure and in the toilets with integrated shower, there is no shortage of space and the partition doors - rigid or foldable - prevent unpleasant water spills.

Mc4 231, Mc4 239

Mc4 237

Mc4 281

300

a round of applause for such a series

Dedicated to those who follow fashion but do not want to give up practicality and safety, the 300 series by McLouis offers modern, elegant and well designed living spaces.

It consists of 12 Mc4 low-profiles with elevating bed, available on Citroën and Fiat mechanics, and 7 Nevis motorhomes, on Fiat mechanics.

The **300 series** vehicles welcome you on board with the two-point door with window, dustbin and mosquito net.

The large garage with a load capacity of up to 300 kg

allows you to transport scooters, luggage and all bulky items. Easy to load with the two standard symmetrical doors, which can be opened at 180 degrees, which are resistant to humidity and colder temperatures, thanks to the anti-splash and anti-freeze rubber seals. The maxi-garage is illuminated and heated.

The vehicles in photo may be equipped with optional specifications.

5-year infiltration warranty.

Construction techniques, innovative materials and state-of-the-art manufacturing processes: this is McLouis' recipe for lighter, more stable and durable vehicles. For more info about construction techniques, go to the dedicated paragraph on pages 52 and 53 of this Catalogue.

Bright interiors

with Seitz windows, equipped with blind and mosquito net, and skylights above the centre and rear of the vehicle. For the living area, light is provided by the panoramic roof as standard on Mc4 low-profiles and the Midi Heki 70x50 on Nevis motorhom

LED external light for your safety and comfort.

A touch of style on Nevis motorhomes: bus-type rearview mirrors that blend harmoniously into the exterior aesthetics of the vehicle, providing ample visual space for manoeuvring.

Contemporary and elegant style, pale colours and soft, ergonomic shapes: the interiors of the 300 series are characterized by light-coloured upholstery and natural wood for the furniture and floor.

The refined details, such as the backlit skylight cover panels, the LED profiles and the chrome finishes of the handles, create an exclusive environment, pleasant to see and to live in.

The vehicles of the 300 series are equipped with double window curtains: one more filtering and light, white, for your privacy, the other blinding, combined with the upholstery, to shield the sunlight and aid your moments of rest and relaxation.

The panel at the entrance, with LED profile, includes the mirror and the handle with light point: an elegant and functional solution to give you a pleasant welcome on board.

Nevis 370

Harmony, design, functionality.

The living area offers the comfort and pleasure of a modern living space to spend time with family and friends. The dinette seats, soft and cosy, are ideal for relaxing at the end of the day, enjoying your favourite dish or watching TV.

The large-sized dinette table is versatile and functional, to adapt to your travel and stopover needs. Depending on the model, it is available as a 360° moving and rotating version, or with folding opening. In combination with the optional bed in the dinette, the table is equipped with a telescopic leg for easy height adjustment.

Mc4 330

Mc4 379, Mc4 373

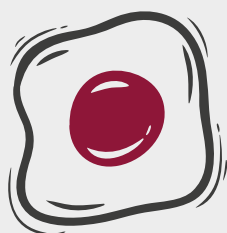

For your stowage, the front area provides large, modernly designed wall units with chrome handle for opening.

The 24-mm thick dinette shoulder with integrated LED light combines comfort and style.

All models in the 300 series have the standard elevating bed with electrically-operated mechanism and spotlight for night reading. On Nevis motorhomes, you can use the dinette also when the elevating bed is lowered thanks to the "space-saving" opening.

The light colours of the furniture and the large panoramic roof as standard in the low-profiles ensure the brightness of the interior. Thanks to LED lighting, you can modulate the intensity of the light and create the right atmosphere according to the time of day or according to your needs.

Dedicated to gourmet enthusiasts.

Cooking on board a McLouis 300 series is fun. The kitchen is perfectly equipped: large worktops, stainless steel sink, three-burner cooking hob*, extractor hood as standard simplify cooking, making it pleasant and relaxing.

*The hob has two burners in models Mc4 330, 331 and 339.

Mc4 372

Mc4 379

Space and rationality.

The McLouis designers have equipped the kitchen with wall units with double shelves, drawers and pull-out baskets to organise the stowage of supplies and accessories in a practical way.

McLouis kitchens are characterized by their robust construction and high quality materials, resistant to scratches, impacts and stress. Easy to clean and antibacterial, they guarantee safety and hygiene.

The large fridge, from 142 to 150 litres depending on the model, allows you to always have the freshest ingredients for your recipes.

Sleep blissfully, wake up heavenly.

Sleeping well is essential to face every day of vacation with energy.

All beds in the 300 series offer plenty of room to rest comfortably and slatted bases for ideal stability and ventilation.

In the models with twin beds the extension - as standard - makes it possible to obtain a maxi double bed in few moves and thus increase the sleeping surface. When not needed, the extension can be easily stored to move around more freely in the sleeping area.

To read until late at night and recharge your devices, underneath the wall units there are adjustable spotlights and multifunction sockets with TV antenna.

When the family is large and there are many occupants, privacy becomes important and not only for rest. The pleated door - as standard - works as a practical separator to divide the sleeping area from the living area.

Mc4 370

Flexibility for all your needs: the central and transverse beds of the 300 series are characterized by the practical manual sliding mechanism as standard. This system allows you to adjust the height of the bed and have more space in the garage or more space in the room, as needed.

The sleeping area is equipped with spacious wall cabinets and wardrobes to store clothes and accessories. Lifiable bases give access to additional storage compartments to contain everything you need for your holiday, without giving up anything.

Mc4 379, Mc4 381

Mc4 370

Luxury and privacy for your well-being.

The very spacious toilet is the ideal place to take care of yourself thanks to the mirror and spotlights. There is no lack of natural light and air exchange: all bathrooms in the 300 series have an opening window.

The shelves, storage compartments, wall units and doors allow you to always have everything you need for your well-being at hand.

The large shower enclosure - independent or integrated depending on the model - is the ideal place to start the day with the right amount of energy or to end it in relaxation.

Series 800

**perfect for those who want to
get noticed**

The 800 series satisfies even the most demanding with its generous standard equipment, ample stowage space, excellent on-board technology and stylish details that design a modern and sophisticated ambience.

The choice is between 12 low-profiles with elevating bed and 7 motorhomes: from the most compact models to the most spacious ones, the environment is comfortable, elegant and well organized to offer the maximum of well-being both on the move and during your stay.

Get on the 800 series

with the convenient two-point door with window, dustbin and mosquito net, equipped with central locking.

Above the entrance, **the LED exterior light** is ideal to illuminate the exterior of the vehicle and provide you with safety and comfort.

Space is never enough! The 800 series also provides you with handy **maxi-garages with an opening band** for additional stowage space.

Nevis motorhomes are fitted with **bus-type rearview mirrors**: they are well positioned and, provide ample visual space for manoeuvring, with no hidden areas.

The vehicles in photo may be equipped with optional specifications.

Thanks to the garage with a load capacity of up to 300 kg

you can transport bicycles, scooters and luggage. The two standard symmetrical doors, which can be opened at 180 degrees, are resistant to humidity and colder temperatures, thanks to the anti-splash and anti-freeze rubber seals. The easy-to-use maxi-garage is illuminated, heated and secure with double lock closure

300
Kg

5-year infiltration warranty .

McLouis uses **construction techniques, innovative materials and state-of-the-art manufacturing processes** for manufacturing light, stable and durable vehicles. For more info, go to the dedicated paragraph on pages 52 and 53 of this Catalogue.

Bright and well ventilated interiors with Seitz windows,

equipped with blind and mosquito net, and skylights above the centre and rear of the vehicle. For even more light in the living area, the Mc4 low-profiles offer the panoramic roof as standard and the Nevis motorhomes offer the Midi Heki 70x50.

Luxury and elegance: the interiors of the 800 series combine the elegance of natural colours with rich stylish details that make the environment precious and exclusive. The dark wood furniture with horizontal veins is pleasantly combined with the two-coloured wall units with cream-coloured glossy lacquer.

The full LED lighting designs the skylight frames and the kitchen profiles.

At the entrance, the **padded panel**, with mirror and handle for an easier getting-on, is embellished with a decorative motif: the same element is also in the frames of the ceiling panels and in the headboards of the beds in the sleeping area.

The leg of the “half-moon” wooden table features a line of LEDs. A distinctive feature of the first models of Nevis motorhomes, this particular leg is present on board both motorhomes and low-profiles of the 800 series.

To protect your privacy and modulate the light, the 800 series offers Roman blinds, a chic and modern solution that tastefully matches the style of the interiors.

In the 800 series the table is the protagonist of the living area

with its characteristic “half-moon” leg,
in wood with LED profile. The finish is
precious, in wood with chrome insert.

The table can be moved and 360° rotated or folded,
depending on the model, and is extremely versatile: it
allows you to enjoy every moment of the day and the
journey with pleasure and comfort.

Mc4 870

As standard, the 800 series models have the elevating bed with electrically-operated mechanism and spotlight for night reading. Nevis motorhomes use space in an optimized way: when the elevating table is lowered, you can still sit comfortably in the dinette.

The full LED lighting designs the skylight frames and the profiles of the kitchen; the diffused ceiling light creates a welcoming and refined environment.

The upholstery has soft, rounded shapes, neutral colours with fabric upholstery, as standard, and optional imitation leather upholstery.

Mc4 872

Nevis 873

Wear the chef's clothes.

The 800 series kitchen is ideal for testing your skills, thanks to the three-burner hob*, extractor hood, stainless steel sink and large work surfaces.

The kitchen panel is equipped with spice rack and convenient hooks, so you always have everything you need at hand.

In order to always have fresh food and drinks on the road, the vehicles are equipped with a large fridge, from 142 to 150 litres depending on the model.

Mc4 872

*The hob has two burners in models Mc4 830, 831 and 839.

Mc4 872

Stowage is particularly important in the kitchen.

Thanks to the wall units - with double shelves - large drawers and baskets you can organize the pantry and accessories in a rational way. As an additional compartment, strategically located near the kitchen, the storage hatch is integrated into the floor.

The choice of materials is crucial: McLouis kitchens are built with high quality, scratch and wear-resistant materials. They are easy to clean and antibacterial to offer you hygiene and safety.

Room for dreaming.

The bedroom is designed to offer maximum comfort during the night thanks to the large beds, equipped with wooden slatted bases and soft mattresses. The headboard of the bed is covered with padded panels and elegant decorative graphics.

The intelligent layout of the spaces includes a rigid door separating the sleeping area from the living area, in order to have more privacy especially when the occupants are numerous.

More space, wherever you want: the central and transverse beds of the 800 series are equipped with a manual sliding rail system as standard to adjust the height of the bed and have more volume in the garage or more space in the room.

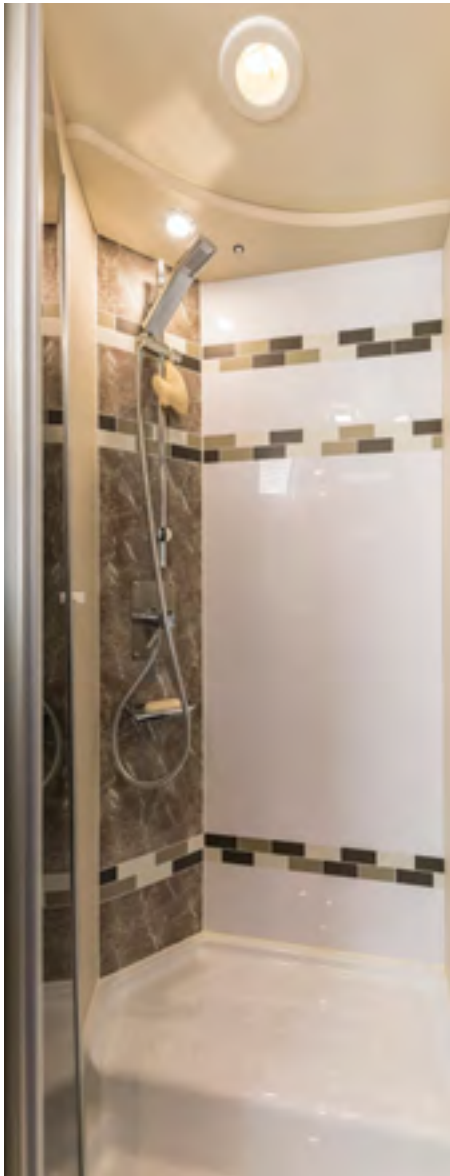

Mc4 879

The models with twin beds offer as standard the conversion into a double bed, through the special extension, so as to obtain an even larger surface for your rest. You can relax while listening to music thanks to the loudspeakers for sound diffusion in your room, or read a good book before going to sleep, taking advantage of the spotlights. For those who can not give up the TV, the sleeping area is also equipped with a socket for connecting the antenna.

The sleeping area is equipped with a padded panel with convenient storage pockets, shelves and tops, spacious wardrobes to contain everything you need for your holiday. Stowage compartments can also be found under the bed in the models with centre and twin beds.

Where well-being and style meet.

To have everything you need for your daily well-being routine at hand, the toilet - in wood - is equipped with a large wall mirror illuminated by spotlights, a large shelf with toothbrush holder and soap holder.

There is no shortage of stowage space thanks to the wall unit, the door and the storage compartment below the top.

Light and air exchange are guaranteed by the window for maximum comfort.

The design detail: the panels of the shower enclosure with marble-effect coating, to be always surrounded by beauty.

CONSTRUCTION TECHNOLOGY

McLous, made to last

Construction technologies, from high performance materials to state-of-the-art production processes.

The body of McLous motorhomes is manufactured in specialized production departments through high-precision industrial processes that guarantee the highest quality standards.

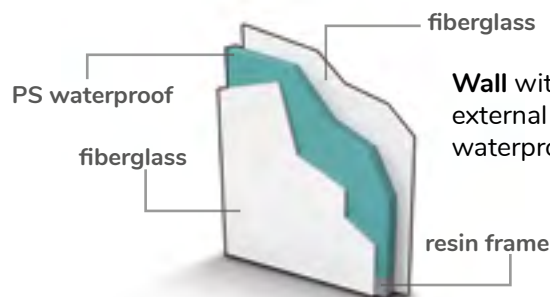

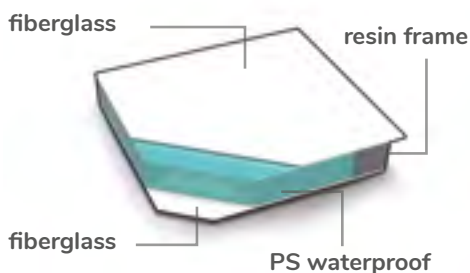

The construction technology

This technology stands out for the total absence of simple wood in the construction of roofs, walls and floors. The elimination of thermal bridges results in maximum waterproofing and acoustic insulation of the living unit, ensuring better insulation and greater protection against infiltration. The use of new materials with high insulating performance, such as bi-composite resins, has made it possible to reduce the weight of the body and make it more solid at the same time. More durable, less subject to wear, easier to repair and maintain: the structure of McLous motorhomes is more resistant to torsion, offering greater stability to the vehicle.

The body under the microscope

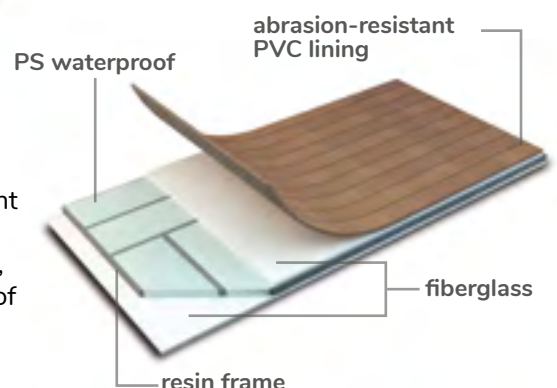

The walls, roof and floor are made of “sandwich panels” formed by a double sheet of fiberglass. On the inside, a two-composite resin bearing frame with high thermosetting resistance makes the living unit lighter and more resistant to mechanical stress, while the waterproof PS insert ensures a high thermal insulation coefficient. In the floor, the upper coating is made of non-slip, abrasion-resistant PVC.

Roof formed by a double sheet of fiberglass, external and internal, resin frame and waterproof PS inserts, thickness 31 cm.

Wall with double sheet of fiberglass, external and internal, resin frame and waterproof PS inserts, thickness 31 cm.

Floor, 54 cm thick, with non-slip, abrasion-resistant PVC lining, consisting of a double sheet of fiberglass, resin frame and waterproof PS.

NOT JUST INSULATION: VENTILATION IS IMPORTANT TOO!

A well built motorhome is not only well insulated from the outside but also well ventilated inside for a healthy, comfortable environment with excellent air quality.

McLouis designers have studied the air conditioning and air circulation inside the vehicles with the aim of standardizing the temperature and avoiding any condensation.

Wall units installed leaving a space from the wall of the motorhome, so that the air is evenly distributed and any condensation or mould is prevented.

Specific opening for the free circulation of air inside the wall units.

Anti-condensation panels spaced from the wall in the living and sleeping areas for air and heat circulation.

Overcab heated through special vents.

Mattresses with lower cover in technical, quilted breathable fabric. Top and sides made of quilted polyester.

Slats in all beds that let air pass between the base and the mattress.

GARAGE AND STOWAGE

Space for your passions.

With McLouis the garage and the external stowage compartments allow you to take everything you need for your holiday with you, without having to give up anything.

THE GARAGE

THE STRUCTURE

The garage has a lower fiberglass cover to protect the compartment from external moisture and uneven road surfaces, such as gravel. The upper cover is also in fiberglass for greater heat insulation and mechanical resistance.

The interior is extruded polystyrene, 30 mm thick, with structural strips for greater rigidity and tightness.

The floor is made of linoleum to protect the loading surface from wear and make it easier to clean and maintain.

ILLUMINATED AND HEATED

The maxi-garage is equipped with light and air vents for heating.

EASY TO LOAD

Thanks to the double access door that creates a "through" load compartment, accessible from both sides. The doors open at 180° so you can load and unload even the most bulky objects conveniently.

SAFE

The doors are equipped with a double lock.

MAXI DIMENSIONS

The load capacity is up to 300 kg (maximum technically loadable weight that affects the approved seats or the remaining total payload).

FLEXIBLE

The sliding rail bed system in the models with transverse and central beds allows you to have more space wherever you want, in your room or in the garage.

DURABLE

It is protected from humidity by anti-rain, anti-splash and anti-frost rubber seals to ensure opening even at low temperatures.

SPACE IS NEVER ENOUGH

The openable external bands with stowage maxi-garage give you additional storage space for extra load.

INTERIORS

The interiors of McLouis are designed to create the freedom of movement of a luxury suite. The rational organization of the spaces allows the optimal use of every corner.

WARDROBES AND WALL UNITS

All the models offer spacious wardrobes and wall units with shelves and hanger rods, where you can store all your things.

LIFTABLE BASES

With a simple mechanism you can lift the slatted bed bases and have large containers for your clothes and bed linen.

COMPARTMENTS IN THE STEPS

Inside the steps that make it easier to get into the bed, or in the compartments of the chest, we have created comfortable spaces for storing shoes and other accessories.

FLOOR HATCHES

On the 800 series vehicles there are practical floor storage hatches, strategically located near the kitchen.

UPHOLSTERY

Choose your style, customize the interiors.

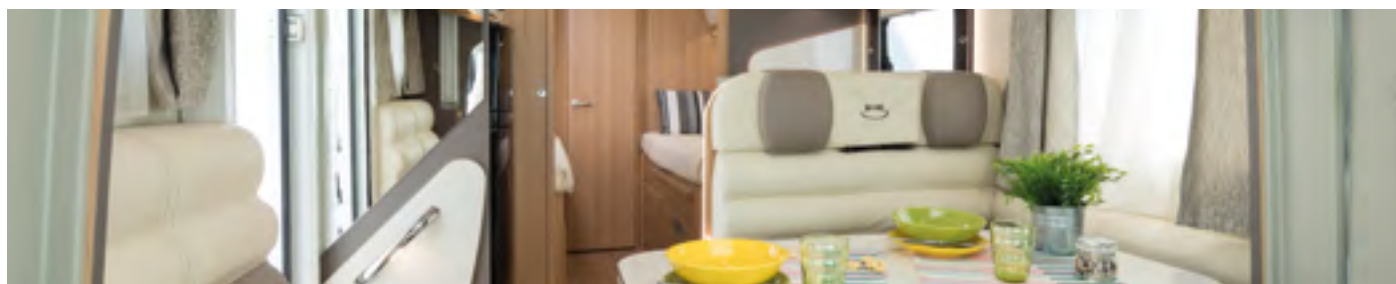

The fabrics in the McLouis range are inspired by natural tones, from ivory to dove grey, from beige to hazelnut. Relaxing, elegant, easy to match colours to create the atmosphere you want on board your McLouis.

TESTS AND CHECKS

Tested safety

At every stage of production, from development to the finished product, McLouis carries out tests and trials in accordance with European standards to offer high quality, safe and reliable vehicles.

The same quality standards are demanded of suppliers: for the most strategic components, a check is carried out on the incoming material and before it is used in production.

CHECKS IN PRODUCTION STAGE

Test on operation of the gas pipes.

Correct installation of the hydraulic systems.

Check on operation and correct installation of the electrical systems.

TESTS IN RESEARCH, DEVELOPMENT AND PROTOTYPING STAGE

Specific testing in climate chamber to check the resistance, duration and performance of the materials selected at extremely high/low temperatures.

Performance tests on the components used. Durability of mattresses, resistance to stress, reliability and compliance with European regulations in the design of the seatbelt unit.

TESTS ON FINISHED PRODUCT

Waterproofing tests on 100% of the vehicles produced, before delivery.

Electronic weighing of 100% of vehicles before delivery and written weight certification for end customer.

Gas system inspection by certified staff according to the German DVGW protocol.

100 statistical checks out of a percentage of the vehicles produced: aesthetic, functional, noise, assembly tests.
